

Head to [Sedelco.org](https://sedelco.org) if you want Video Instructions Creating Your Account and Navigating PowerSchool

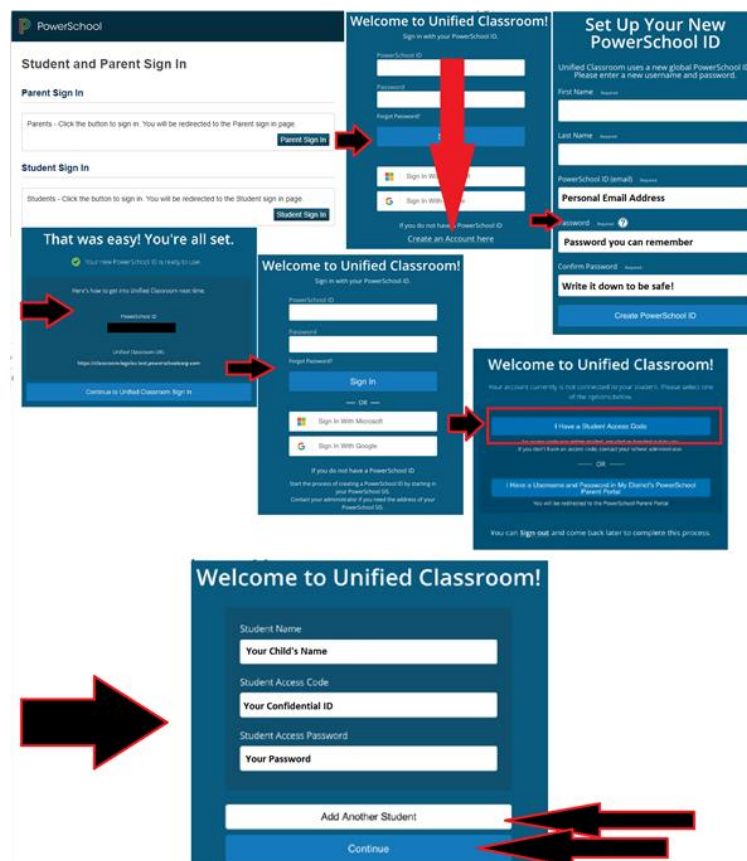

Hello Parents and Guardians

To communicate with your children's teachers and view their grades you need to be able to access PowerSchool and use its features. To create an account and link it to your children's data you will need the Confidential ID and Password provided from the district. This information will typically be found on the paper attached to your child's schedule for the year. If you are missing that paper, contact a district administrator or secretary and they will be able to get you your Confidential ID and Password. (The ID is typically just your last name and the password is a random sequence of capital letters and numbers).

(1) The First Step will be to Create an Account

(a) Head to <https://sedelco.powerschool.com/public> (This will be the only time you need to go to sedelco.powerschool.com, after you create an account you sign in via <https://classroom.powerschool.com>)

(b) Click on [Parent Sign In](#), then scroll down and click create account. Create an account by filling your information out in the required field. For creating your PowerSchool ID, use a personal email address and make sure to write down the password you create/put it somewhere safe. Now go to <https://classroom.powerschool.com>, Sign-In with your newly created PowerSchool ID and Password (The email and password you created). Click on [I have a Student Access Code](#). Here is where you plug in **Your Child's Name and use the Confidential ID and Password** in the middle of the paper the district gave you (Labeled "Your Confidential ID" and "Your Password", typically your last name and random #s and Letters for a password). If you have another child in the district click Add Another Student and follow the same process with that student's name and your other Confidential ID and Password. Once you've entered all your children's accounts, click Continue. It may take a few minutes to load everything the first time, but you now have access to your PowerSchool Account!

(2) Now Your account is created and you can Sign in and view your child's progress/communicate with their teacher anytime at: <https://classroom.powerschool.com>

Once you create your account send your Teachers a message via the Communications Tab

Head to Sedelco.org if you want Video Instructions Creating Your Account and Navigating PowerSchool

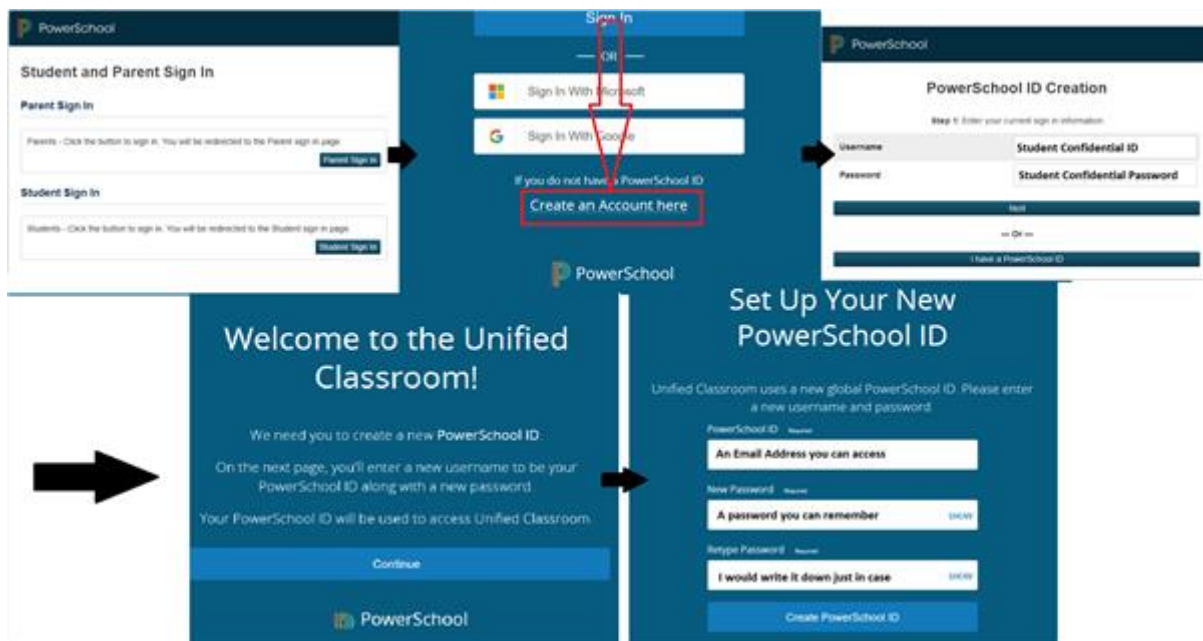

Hello Students

To communicate with your teachers and view your grades you need to be able to access PowerSchool and use it's features. The Confidential ID and Password can be found on the bottom of the paper that was attached to your schedule. If you happen to have misplaced this paper your administrator and/or a secretary can print you out another copy.

(1) The First Step will be to Create an Account

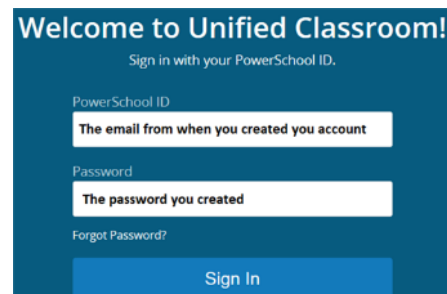

(a) Head to <https://sedelco.powerschool.com/public> (This will be the only time you need to go to sedelco.powerschool.com, after you create an account you sign in via <https://classroom.powerschool.com>

(b) Click on [Student Sign In](#), then scroll down and click create account. Here is where you use the Username and Password at the bottom of the paper the district gave you (Labeled "Your Name" Confidential ID and Password, typically your last name followed by some #s and random #s and Letters for a password). After you plug in your Username and Password, you will be prompted to create a PowerSchool ID and Password. Make the PowerSchool ID an email address you use frequently and make sure to write down your password for later!

(2) Now Your account is created and you can Sign in and view your progress/communicate with your teacher here: <https://classroom.powerschool.com>

(3) The phone app "PowerSchool" will work using the Confidential ID and Password from your original paper. The District Code for Southeast Delco is "FRGF"

Once you create your account send your Teachers a message via the Communications Tab
